Double cabin

ultimate solution for work and leisure

By fitting a second seat row with an integrated partition wall it is possible to convert your closed panel van into a double cabin at all times. The perfect solution for the combined transport of people and material.

Safe, comfortable and efficient.

Obviously the double cabin applies to the highest European safety standards. All seats are provided with 3-Point inertia-reel safety belts and tiltable and in height adjustable head restraints.

The separation wall is designed to meet the BS/ISO 27956 standard for load shifting protection.

Also the design plays an important role when developing a double cabin. The fine designed partition wall separates load and passenger compartment completely.

Snoeks double cabins

core values

Design

We want end users to experience vehicles with our modifications as if the end result was built in its entirety by the factory. Snoeks products are fully aligned with the design of the vehicle. The structure and colour of materials applied, such as fabrics and plastic parts, perfectly match with those originally used.

Safety

Snoeks ensures all products meet the latest legislation for Light Commercial Vehicles. All our seats are equipped with tested and approved 3-point seat belts and adjustable headrests. Our partition walls offer occupants certified protection against shifting cargo.

Comfort

Snoeks has decades of experience in developing and constructing car seats where quality, safety, design and seating comfort maximize the comfort experience of consumers. These ergonomic car seats adequately support the occupants' body. With many optional features like ISOFIX, arm rests and sliding seats you can further increase your comfort.

Functionality

The double cabin is the optimal and attractive combination for the efficient transport of both persons and cargo. Unique is the loading space created under the rear seats which can be utilized for transporting "longer" cargo. To further enhance the functionality Snoeks offers options such as convenient storage pockets, USB ports and LED spots.

Fitability

Snoeks modifications are designed for a specific car model and are therefore fully compatible. We aim to match the high finishing level of the car manufacturer. We attach our products as much as possible to connection points already available in the vehicle. All these efforts enable us to modify vehicles with a minimum of work hours needed.

Double cabin

Essential

With the Essential double cabin, safety and functionality come first. This double cabin can accommodate up to six people while still providing a cargo area in which you easily transport all the necessary materials and tools needed for a six crew project.

All seating positions are equipped with European approved 3-Point inertia-reel safety belts. The 3-seater contoured bench is covered with cloth as the front seats.

The Essential has two bench options:

1. Standard 3-seater
2. 3-Seater with folding seats, storage pocket and two armrests

1) *Head restraints adjustable in height and tilting*

2) *3-Point inertia-reel safety belt on all seats*

3) *3-Seater contoured bench*

4) *Benchcover, storage pocket*

5) *Step-in cover plastic, black*

Seating options

choose your ideal seater

- 1) *Standard 3-seater*
- 2) *3-Seater with two folding seats, storage pockets and two armrests*
- 3) *Loadarea (standard 3-seater), additional loadspace under the bulkhead*
- 4) *Loadarea (folding 3-seater), with removable storagebox under the bulkhead*
